Dear «First1»:

In the process of updating our files, we noticed that you have not been into our office in quite a while. Many things can change with time, but one thing is certain - the health of your eyes is critical to good vision and a complete eye exam should be done every year to check the overall health of your eyes.

Our office is equipped with a Full Service, state-of-the-art laboratory and a large selection of contemporary designer eyewear. Come see the latest collections from designers such as **Calvin Klein** and **Giorgio Armani**. We also have new children's collections from **NBA**, **Disney**, and **FAO Schwarz**.

I have some exciting news about LASIK, the laser vision correction procedure for *nearsightedness*, *farsightedness*, and *astigmatism* that has helped over a million people see their best without depending on glasses or contacts. As an affiliate doctor of the TLC Laser Eye Centers in San Marcos, I can provide you with the most recent information about how laser vision correction works and help you determine if it is right for you. It has been a year since I personally had the procedure done, and I am thrilled with the result.

At our office, we constantly strive to offer quality, personal service, affordable pricing, and thorough, comprehensive eye care. We pride ourselves in providing state-of-the-art eye care and the latest in quality eyewear and contact lenses. Please call us at your earliest convenience to schedule your eye exam. Also, as a valued patient, we would like to offer you our special prices on products and services. Please take advantage of these special enclosed offers. We look forward to seeing you soon!

Sincerely,

Dr. Jackie Guldir
